

*Junior Achievement empowers young people to own their economic success.*

**What we teach: Work-Readiness, Financial Literacy, Entrepreneurship**

*Our hands-on programs prepare students to:*

- *Proactively manage their finances*
- *Be entrepreneurial*
- *Develop career-readiness skills that will be recognized and valuable in a global workforce*

*A unique component to the success of JA is our partnership with community volunteers who teach our [K-12 curriculum](#) while sharing their own personal experiences with the students. As a result, students connect classroom learning to real-world issues and understand the value of their education.*

**Volunteering for JA is a great way to get involved with your school!** *Our volunteers tell us that volunteering is easy. You receive training and all the materials you need to be successful in the classroom. To volunteer for a program, please contact Cassandra Druhl at [cassandra.druhl@ja.org](mailto:cassandra.druhl@ja.org).*

*Available opportunities:*

*Camanche High-Economics program. Seven 45-minute visits during the Spring 2016 semester. Various class times available, volunteers are able to work in pairs to split up sessions.*
